

Driving By Stars

Tail lights are all I can see; It's pitch black out like under the sea
Where's the next town out here in nowhere? Guess I'll find out when I get there...

CHORUS

Driving by stars (yeah), Columbus in a car (yeah)
Magellan on the road—freedom overload!

I've left it all behind me now; and everything looks so spread out
Nebraska sky has more stars than home; they're following me when I roam...

CHORUS

(repeat chorus)
