

## **You Will Be Safe Here (for the night)**

The papers said you were a monster, and you'd never shown remorse  
For the crimes they said you'd done  
You found yourself going it alone against the entire police force  
A rebel life's a lonely one...

### CHORUS

When the news man said you'd broken out of jail  
I knew you'd have to go down to old Mexico  
And though I know the marshal is hot on your trail  
I can promise you this one small thing...  
You will be safe here for the night

Big talk of money that you took, but not of whom you gave it to  
And how they've got you on the run  
And on TV they never say how hard it is to rob a bank  
Without killing anyone

### CHORUS

I know that they will come sniffing around here eventually  
And that is how I know you won't be staying long here with me  
I know you'll be gone by first light  
But I can't join you on your flight  
To leave my life would not be right  
But this I can do to help the fight...you will be safe here for the night
